Use this guide to setup up Sharp Imagers to scan to FTP on Macs

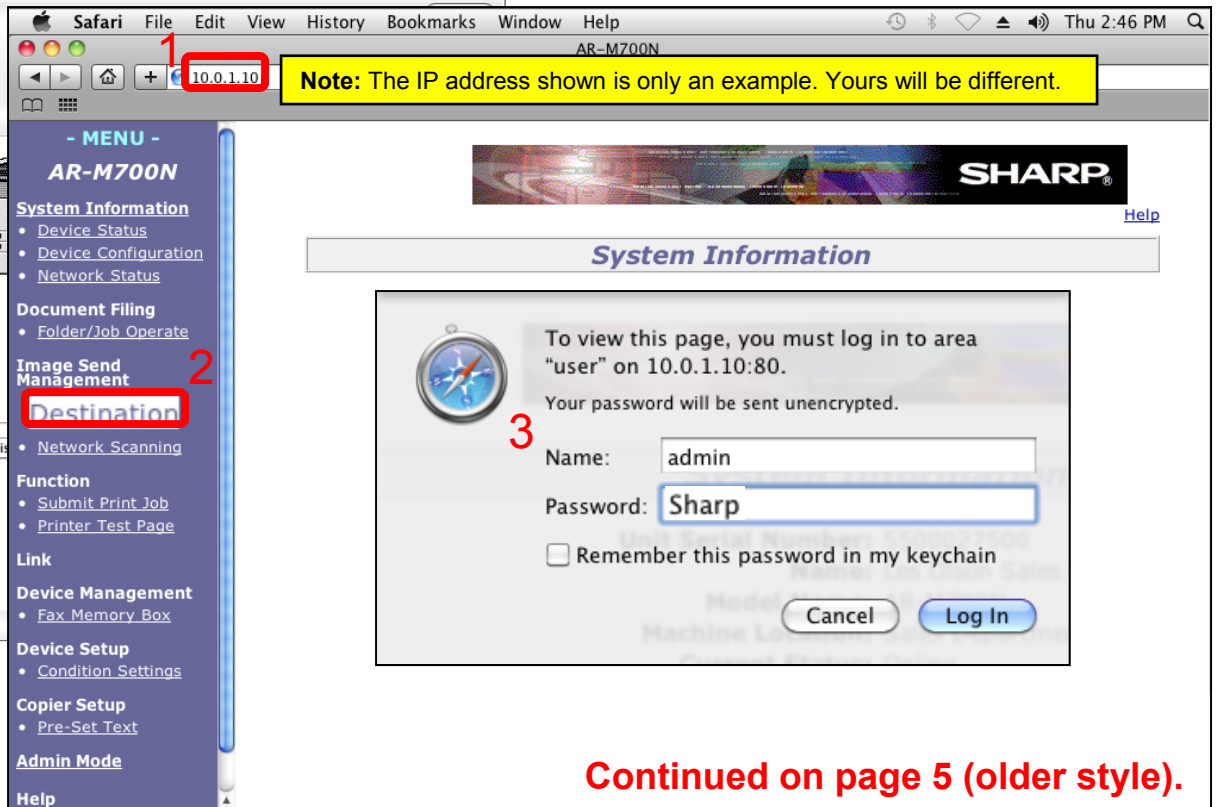

Note: Scan to FTP on Macs is not officially supported by Sharp

1. Enter the [IP address of your Sharp](#) in the address bar of a web browser.
2. Click **Address Book** (Newer/ & tablet style models).
Continue on page 3 if your Sharp model ends with 10, 11, 40 (ex. MX-26**10**, MX-51**11**, MX-51**40**).
Continue on page 4 for all other MX series MFPs with the newer style web interface.
Click [Destination](#) (older style models).
3. Older models only – Login: admin/Sharp (both case sensitive). Click Log in. Continue on page 5.
