

Remote Controlling Sharp MX* MFP (Multi Function Peripherals)

November 15, 2013

By installing the free VNC Viewer (remote control software), administrators and help desk personnel may assist users as if present at the MFP.

Click here: [Remote Control Instructions](#)

Note: The guide (above link) contains a link to download the latest free version (PC, Mac, Linux, etc) of the VNC Viewer or obtain version 5.0.6 (bottom of page).

*The following models support the remote control functionality: MX-C311, MX-C312, MX-C401, MX-C402SC, MX-B401, MX-B402/SC, MX-M283N, MX-M363, MX-M453, MX-M503, MX-2600, MX-3100, MX-4100, MX-4101, MX-5001, MX-2610, MX-3110, MX-3610, MX-4110/11, MX-4141, MX-5141, MX-5110/11, MX-M623, MX-M753, MX-6240, MX-7040, MX-6500, MX-7500
