

Downloading and Installing Print Drivers for Windows OS

The attached document will detail the process of the proper installation and configuration of print drivers for computers running Windows OS. This guide will walk through the process of connecting both Sharp and HP printer drivers to Windows computers.

If there is any confusion, errors, or deviation from the process outlined in the guide, please reach out to the Les Olson Connectivity Helpdesk for assistance in proper completion of the connection process. You can reach the helpdesk at (801) 413-2106. If a representative does not answer the phone right away, they are busy assisting other customers. Please leave a message, and they will reach back out when it is your turn in the queue.
