

Finding My Printer's IP Address

The attached document will detail the process of finding the IP Address that is assigned to your Sharp MFP. Detailed will be three ways to see your IP Address through your printer and computer.

If there is any confusion, errors, or deviation from the process outlined in the guide, please reach out to the Les Olson Connectivity Helpdesk for assistance in proper completion of the connection process. You can reach the helpdesk at (801) 413-2106. If a representative does not answer the phone right away, they are busy assisting other customers. Please leave a message, and they will reach back out when it is your turn in the queue.
